

Andromeda (AND) Token Whitepaper

Introduction

Andromeda (AND) is a community-driven BEP20 token built on the BNB Smart Chain. The token is designed with a long-term vision to restore the original spirit of decentralized finance (DeFi) -- giving power, profit, and participation back to the community.

Mission Statement

Andromeda aims to be a symbol of revival for true decentralized ecosystems. Through transparent tokenomics, strong community governance, and strategic utility development, we will create a sustainable ecosystem with real-world benefits.

Token Details

- Name: Andromeda
- Symbol: AND
- Blockchain: BNB Smart Chain (BEP20)
- Decimals: 18
- Total Supply: 200,000,000 AND
- Initial Circulating Supply: 10,000,000 AND
- Contract Address: 0x7E24106829BAbc184548B46067D9d05CAf93D44A

Token Distribution

- Community & Airdrops: 60% (120M AND)
- Liquidity Pools: 20% (40M AND)
- Development & Marketing: 15% (30M AND)

- Team Allocation (Locked): 5% (10M AND)

Roadmap

Q2 2025

- Token deployment on BNB Chain
- Logo verification & Trust Wallet integration
- Launch of official website

Q3 2025

- Community building: social media & airdrops
- CoinGecko & CoinMarketCap listing
- First utility reveal (NFT or staking)

Q4 2025

- Partnerships with BNB DeFi projects
- Launch of Andromeda DApp (Phase 1)
- DAO proposal system for community votes

Q1 2026

- Cross-chain bridge exploration
- Integration with major DeFi platforms (PancakeSwap, etc.)

Security

The smart contract was deployed with standard OpenZeppelin libraries and will undergo a community audit initiative. Liquidity will be locked, and the contract is non-mintable to prevent inflation.

Utilities

Initially, the token will serve as a store of value and governance token. Future utilities will include:

- DAO Voting rights
- Access to exclusive staking pools
- Discounted fees in partner DApps
- Rewards through ecosystem incentives

Community Governance

Andromeda will gradually shift governance power to token holders using on-chain voting. Proposals may include:

- Fund allocation
- Roadmap changes
- New partnership approval
